

2043 HEAVY DUTY SIDEMOUNT SINGLE LEVER CONTROL

The 2043 is a spin off from our Model 2044. The extremely heavy duty internal design of this unit allows for connection of 60 series cable for the control of small water jets and engine speed with a single lever. The control handle can be pulled out for overriding throttle. The output lever for the water jet bucket has an adjustable stroke (max 4") and can be adjusted to suit all small water jets. The throttle output lever has several attaching points for the cable with a stroke of up to 1 ¾".

Materials: Die cast silicon bronze with stainless steel hardware

Weight: 12 lbs (5.5 kg)

ORDERING INFORMATION

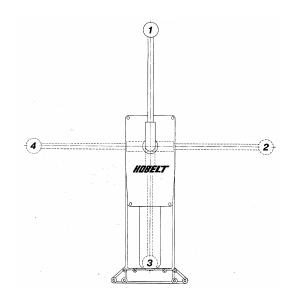

H – with one neutral safety switch

K - with chrome finish cover and handle

L - with polished brass finish cover and handle

M – with black epoxy finish cover and chrome handle

This control can be **ordered** (cannot be changed in the field) with the neutral position of the handle in any one of the four positions indicated. Position "1" which is vertically up is standard. Pleas specify the appropriate number when ordering.

Example: 2043 control with chrome finish and the handle in the standard position the order number is 2043-K1

Note: If a neutral safety switch is required it should be ordered with the control. Later installation can be very difficult.

Each cable end attached to the control requires one connection kit which must be ordered separately.

BUCKET KITS:

Ordering number:

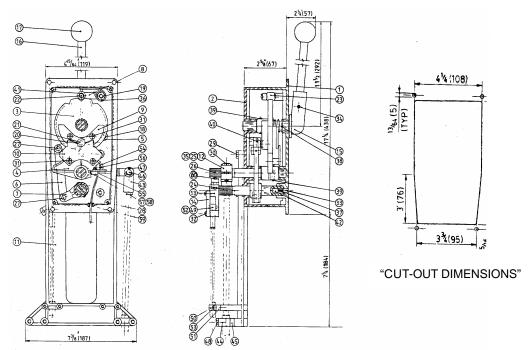

2043-0911 (40 series cable) 2043-0912 (60 series cable)

THROTTLE KITS:

Ordering number:

2043-0901 (30 series cable) 2043-0902 (40 series cable)
